EDUCATION

B.Sc Computer Science Expected 2027

V. O. Chidambaram College, Thoothukudi

SKILLS

Languages: Python, JavaScript, HTML5, CSS3, SQL

Frameworks / Libraries: Flask, Bootstrap, Pandas, NumPy, Matplotlib, Seaborn

Databases: MySQL

Tools & Platforms: Git, GitHub, GitHub Pages, Google Colab, Flask-Login, SQLAlchemy

Core Concepts: Full-Stack Web Development, CRUD Operations, Data Analysis & Visualization, Role-Based Access Control, Responsive Web Design

PROJECTS

Hospital Management System | *Flask, MySQL, Bootstrap, SQLAlchemy*

- Built a full-stack Hospital Management System enabling patients to book doctor appointments and admins to manage records via a role-based CRUD dashboard.
- Implemented secure authentication and role-based access control for patients, doctors, and admins.

Personal Portfolio Website | *HTML5, CSS3, JavaScript*

- Designed and developed a responsive personal portfolio website showcasing projects, technical skills, and professional links, deployed via GitHub Pages.

Student Performance Analytics | *Python, Pandas, NumPy, Matplotlib, Seaborn*

- Built a student performance analytics tool to automate grade calculation, pass/fail classification, and topper identification, with visual dashboards for subject-wise trend analysis.

CERTIFICATIONS

- **TCS iON Career Edge – Young Professional** — TCS iON, Tata Consultancy Services, Jun 2026
- **SQL for Data Analysis** — SimpliLearn SkillUp, Jun 2026
